

RUGGED REDEFINED. WORK IN ANY WEATHER, ANY ENVIRONMENT, AT ANY TIME.

THE FUTURE IS MOBILE, AND IT'S ALREADY HERE.

The mobility trend has been rapidly gaining momentum over the years and is not set to stop anytime soon, with ever advancing technology and solutions for field workers who need high performance and reliability in one solution.

With Zebra Technologies, you have access to a complete rugged mobile computing portfolio, from handheld devices to larger format tablets and 2-in-1 laptops. Plus access to software tools, support contracts and additional services to empower your workforce.

Talk to our Enterprise Mobility Specialist, Fleur Tytheridge today to learn how this technology can help you and to design a mobility solution tailored to fit your business.

ALREADY MOBILE?

Arm your workforce with the latest rugged technology, that is future-proofed and ready to grow with your business.

Add more functionality to improve performance with Zebra software tools, support contracts and additional services.

- Zebra can offer improved user experience by consolidating hardware used in-office, in-vehicle and in-field with an accessory ecosystem designed for smooth transition between workplaces
- Reduce the cost of hardware and streamline your IT support requirements with a multi-purpose device
- Seamless integration with business systems; run on a Windows platform for a smooth PC experience, or opt for Android for ease of app development and device management
- Flexible configuration such as integrated barcode scanner or RFID module, ideal for asset management
- Unique design with the XPAD integrated carry handle; the most popular and in-demand form factor with field workers for over a decade

NOT YET MOBILE?

As more work transitions from paper to digital, field workers need to be equipped with the right tools for the job.

Talk to us to find out how Zebra's full range of mobility solutions can help create a better user experience, increase productivity and drive efficiencies in your business.

- Support contract for up to 5 years with Zebra OneCare gives you peace of mind. Repair or replace cover includes accidental damage and is serviced locally in NZ
- Choose from core models, or customise your hardware with flexible configurations
- Find out how Zebra Mobility DNA software tools can help a business move from paper to digital
- Understand Total Cost of Ownership for rugged versus non-rugged hardware with our TCO Calculator
- Consult with our team to help you automate processes

L10 RUGGED TABLET PLATFORM

A VERSATILE RUGGED TABLET PLATFORM, RUGGED TO THE CORE

GET THROUGH TASKS FASTER

With more CPU options to guarantee the performance-driven L10 rugged tablet will be the right fit for your business applications and your budget. The L10 is available with up to 16GB RAM and a user removable 1TB SSD for the most data-intensive business applications.

BE IN CONSTANT TOUCH AND OPERATION

Stay connected with dual SIM for 4G LTE with GNSS for mobile workers transitioning between networks. RF pass-through for high-gain external antennas allows you to work in the most remote places. Hop-swap battery packs enables uninterrupted performance and removes the need to charge-up on the job. Extended-life battery options provide over 24 hours of continuous power.

EXPAND YOUR CAPTURE CAPABILITIES

Each L10 rugged tablet can be equipped with workflow-specific tools needed for nearly any application. With a 13MP rear-facing camera and 2MP front-facing camera, capture images and video, while two front-facing microphones support VoIP collaboration. Integrated 1D/2D barcode reader or RFID module enables highly efficient asset management.

A PLATFORM TO MEET ANY NEED

L10 series is available with intrinsically safe ATEX/IECEX Zone 2 Certification for use in hazardous environments such as oil and gas, mining and industrial.

XSLATE R12 RUGGED TABLET PC

RETHINK WHAT A RUGGED TABLET SHOULD BE

With the XSLATE R12 and its long-lasting, hot-swappable battery, you'll always have the mission-critical computing functions and real-time insights required to do your job efficiently. You'll also have the clarity of a bright 12.5" display and easy-to-use touch, pen, voice, and camera inputs. Want to finish more data-intensive tasks? Just release the Bluetooth-connected keyboard from its "stow and go" mode and watch this rugged tablet transform into the ideal laptop replacement.
